MOODY MATH SCORES ADD UP TO SUCCESS (April 16, 2005)

Port Moody Secondary mathematicians picked up some impressive rankings in the Canadian Math Competition.

For Grade 9 students, Pascal test score results put Port Moody first in the zone, second in BC and sixth in Canada.

Grade 10 students writing the Cayley scored first in the zone, fourth in BC and 18th in the Country.

Students in Grade 11 who wrote the Fermat finished first in the zone, 10th in BC and 27th in Canada. That all adds up to some pretty smart kids.
